ERAN USD

Automatic USDT Investment & Referral Platform · Business Plan

Overview

ERAN USD is a fully-automatic USDT platform. Users deposit real USDT on the TRC20 (Tron) or BEP20 (BNB Smart Chain) network to a unique personal address. Each deposit is verified directly on the blockchain and credited automatically. Daily ROI and multi-level referral income are calculated automatically and shown in the user panel. Withdrawals are processed after admin approval with an on-chain TXID.

Investment Plans

Plan	Daily ROI	Duration	Min (USDT)	Max (USDT)	Total ROI*
Starter	1.0%	180 days	50	499	180.0%
Growth	2.0%	120 days	500	1,999	240.0%
VIP Elite	3.0%	90 days	2,000	100,000	270.0%

*Total ROI over the full plan duration (daily ROI × duration). Principal is returned at maturity.

Multi-Level Referral Income

Earn commission automatically whenever a member in your referral network makes a deposit. Commission is credited instantly to your withdrawable balance.
